## QUICKLY MAP PRODUCTS TO MULTILINGUAL MARKETPLACES WITH LISUTO AI XMAPPER

Lisuto AI Xmapper uses both classification technology and extraction to pinpoint the best category placement for your products on each marketplace in each language.

[REQUEST A DEMO](#)

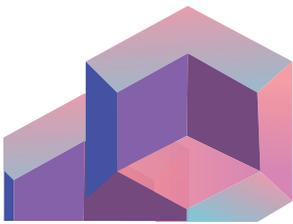

## LISUTO AI XMAPPER BOARD MARKETPLACES FASTER!

Every time you board inventory you need to find the right category for each inventory item in each of the marketplaces you board. We know its hard because we did it. We wanted to make it better and faster for you and for us, so we created the Lisuto AI Xmapper.

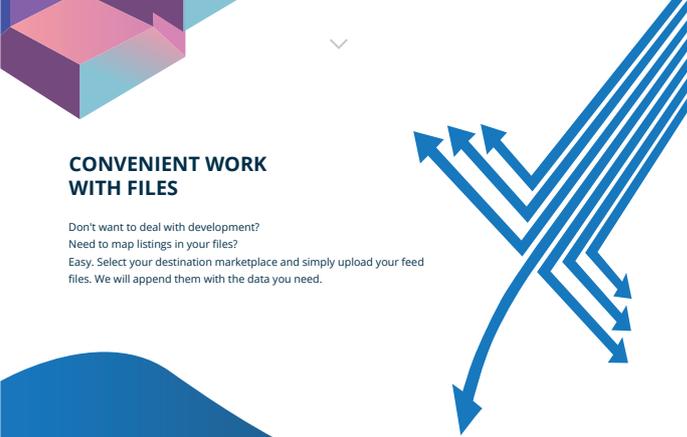

- eBay US: 29928
- eBay UK: 60815
- eBay DE: 23724
- Amazon US: 1069820
- Amazon UK: 201076031
- Amazon JP: 2017189051
- Rakuten US: 5503
- Rakuten JP: 216058
- Walmart: 1044265
- Jet: 12000219

## LISUTO AI XMAPPER SCALES TO FIT

### SCALABLE ACCESS OVER API

Significant quantities listings to map? Want to hoop up your system? No problem. Lisuto AI Xmapper can be accessed over a simple convenient API and can process millions of requests quickly

## CONVENIENT WORK WITH FILES

Don't want to deal with development? Need to map listings in your files? Easy. Select your destination marketplace and simply upload your feed files. We will append them with the data you need.

## APPEND PRODUCT DATA WITH THE LISUTO AI AUGMENTER

Lisuto AI Augmenter uses extensive Lisuto structured catalog to append missing critical product data.

## LISUTO AI AUGMENTER ADDING MISSING PIECES OF THE PRODUCT DATA PUZZLE

You know that having complete product information is truly important. Product identifiers are critical for listing on marketplaces and good product data makes a difference for a successful sale. When you need necessary product information, we can provide it by Lisuto AI Augmenter.

- UPC: 885911141901
- MPN: DC725K2 DC725KA
- ASIN: B000X1S0LC

## DATA AS A SERVICE

### QUICK AND SIMPLE

Just place a call to our API and get the necessary data. Cannot use the API, but still need the data? Our services also work with files.

### MULTILINGUAL

Our data is collected and processed in a number of languages from many sources. This means that not only we have data in the language you want, we also have data on the market you need.

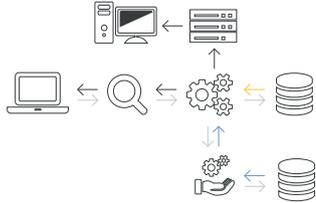

### CONSTANTLY GROWING

Our catalog is constantly growing while our algorithms are learning. Data we did not have yesterday will be there tomorrow.

## PLACE YOUR PRODUCTS WHERE BUYERS EXPECT TO FIND THEM WITH LISUTO AI CLASSIFIER

Lisuto AI Classifier uses neural and statistical classification algorithms providing optimal product placement in any marketplace and language.

REQUEST A DEMO

### LISUTO AI CLASSIFIER STAND ALONE OR SUPPORTIVE

As a marketplace you understand why it is so important to classify sellers data into right categories and there are many reasons why this data gets categorized into the wrong places. Luckily, we offer a simple way to address it - Lisuto AI Classifier.

## LISUTO AI CLASSIFICATION CLUSTERS

### FULLY TRAINED TO YOUR TAXONOMY AND LANGUAGE

Need the service up and running without fuss? We can help. We'll set the system, provide the training sets in your language, train the algorithm, test the performance and be everything up.

### ALGORITHMS AND TOOLS READY FOR YOUR TRAINING INPUT

You have your training sets, you know your taxonomy the best, you got the time and ready

for the task on your own. We will set you with the tools and get going.

## BRING STRUCTURE INTO SELLERS DATA WITH LISUTO AI TAGGER

Lisuto AI Data Tagger locates useful information inside sellers free text and pulls out the data bits in a usable structured format.

REQUEST A DEMO

### LISUTO AI TAGGER TURN UNSTRUCTURED TEXT INTO STRUCTURED DATA

You know that structured data is the foundation of navigation, filters, facets and high quality search. However the data rarely arrives structured and the extraction of every structure element is really hard. Now its much easier with Lisuto AI Tagger.

- Brand: **Breitling**
- Line: **Avenger**
- Series: **Seawolf**
- Model: **A17331**
- Diameter: **45mm**
- Gender: **Men**
- Material: **Steel**
- Dial Color: **Yellow**
- Movement: **Automatic**
- Condition: **New**

## DATA STRUCTURING AS A SERVICE

### SIMPLE INTEGRATION

The system is complex, but the integration is really simple. Just place an API call to our service with the data you want to classify or structure and we will return the proper category or set of attributes for your use.

### QUICK DELIVERY

You can start using our services out of the box in a few hours. If you would like us to custom tailor things for you it may take a bit longer, but we are very quick in our custom implementations.

### SECURE ACCESS

Your customers data is safe with us. We don't ask to access your system, we don't ask unnecessary questions. Just send us a query and get a reply.
